Re: Invitation to participate in our SECOND Harlem Science Parade FOLLOWED by our SEVENTH 'Global Harlem Science Street Fairs & Festivals' in the Heart of Harlem on Saturday, October 2nd 2010 in Harlem NYC.

Dear Sir/ Madam,

It is our pleasure to invite you to be a part of a day of unique events celebrating Science and Society. We at Harlem Children Society (HCS) are organizing a Science Parade and Street Fair & Festival in the heart of Harlem on Saturday, October 2nd 2010, involving local communities, high schools, hospitals, health facilities, for and non-profit organizations, local businesses, universities, from across NYC boroughs. We expect a participation of more than 15,000 students, parents, recruiters, leading scientists and community leaders from across the city and region. Apart from our involvements in NY area schools, we have our programs all over the country – Washington D.C., New Orleans, Hopi, Navajo and other Native American reservations; and in other countries in all continents such as – Mexico, Honduras, Ghana, Ethiopia, Kenya, Tanzania, India, Moldova, New Zealand and others. This forum will provide an extraordinary opportunity for reaching out to innumerable people – educating and providing medical service.

At HCS we are dedicated to fostering the ambitions of students of immense talent and drive, who might otherwise never receive the opportunity to realize their dreams. HCS promotes innovative, extremely high-end, one-on-one, hands-on research programs in science, technology, engineering, mathematics (STEM), bio/medicine & allied fields. I founded the HCS – a not-for-profit organization [501(c)(3)], in 2000, which has since become one of the most highly sought-after programs, pairing students with leading scientists, engineers and doctors in reputed institutions and universities. Moreover, it seeks to foster student greater awareness and desire to give back to their communities, sharing the gifts of knowledge and opportunity bestowed upon them with others less fortunate.

As a participant in our event, your hospital/institution will have the opportunity to reach out to a diverse array of citizens. By sending your representative(s), you will tap into this wellspring of potential to advance health awareness. We invite you to showcase your institution in the Science Parade leading to the site of the event and/or arrange your booth where you can discuss/distribute information specific to your institution and health matters, as well as set up mobile screening. Besides the exposure you will enjoy, you will be instrumental in advancing the sustainability of HCS's science education programs. Your participation ensures your institution visibility on promotional materials for both the Second Annual Science Parade and Seventh Annual Science Fair & Festival.

Don't miss out on this event! If you are interested, please visit our website for complete details and registration information at www.HarlemChildrenSociety.org and at http://www.harlemchildrensociety.org/index.php?option=com_content&task=view&id=637

We encourage you to contact our offices at 646-643-8563 or 646-633-4645/4655 should you need more information. We look forward to your participation.

Cordially,

Dr. Sat Bhattacharya
